

## Feedback

***Planning for stronger, more resilient floodplains*** has been developed as a toolkit for Councils to support land use planning. The Authority will work closely with Councils during the consultation period to provide advice on both the Guideline and the Floodplain Mapping.

Where mapping has been completed, a hardcopy of the Mapbook and a copy of the digital datasets will be provided to relevant Councils.

The data used in the determination of the “Interim Floodplain Assessment Overlay” is available to Councils via a secure FTP service from the Spatial Information Group within the Department of Environment and Resource Management (DERM). The data consists of a number of whole of state datasets and contour datasets specific to each sub-basin. There are staff members within each Council who currently have access to the DERM FTP service via a secure login and password.

Please contact DERM at [productdelivery@derm.qld.gov.au](mailto:productdelivery@derm.qld.gov.au) to request access to the datasets via the FTP service.

Feedback on the floodplain mapping can be received by using the feedback button on the interactive mapping website [www.qldreconstruction.org.au/maps/interactive-map](http://www.qldreconstruction.org.au/maps/interactive-map) or via a formal submission during the consultation period.

Councils are invited to contact the Queensland Reconstruction Authority on 07 3008 7200 or alternatively by email to [floodplain@qldra.org.au](mailto:floodplain@qldra.org.au).

Formal submissions during the consultation period can be lodged in the following ways:
